CONCORDIA UNIVERSITY

MONTREAL, QUEBEC

1990-1991

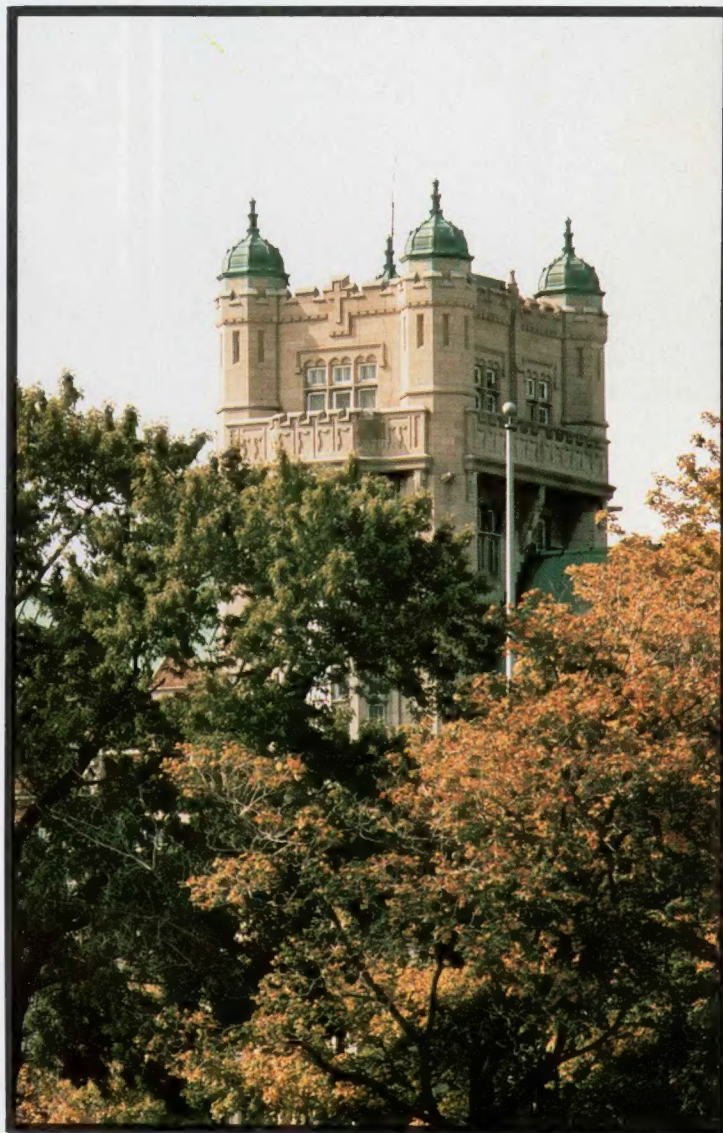

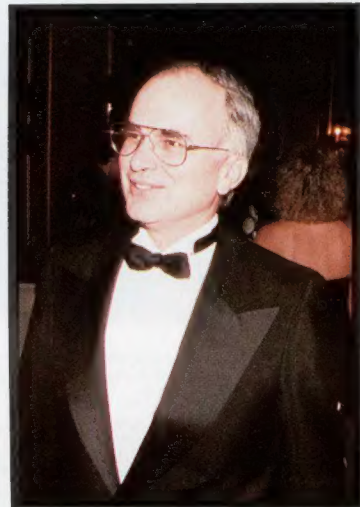

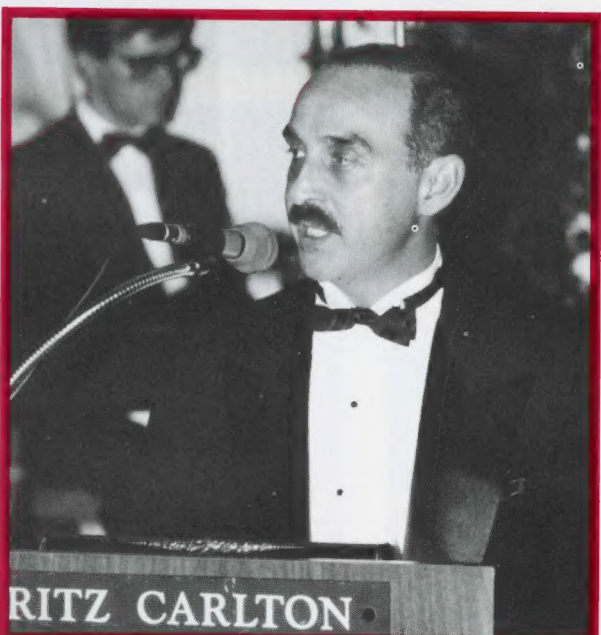

FIRST ANNUAL
CONCORDIA ALUMNI
HOMECOMING
OCTOBER 12-13, 1990

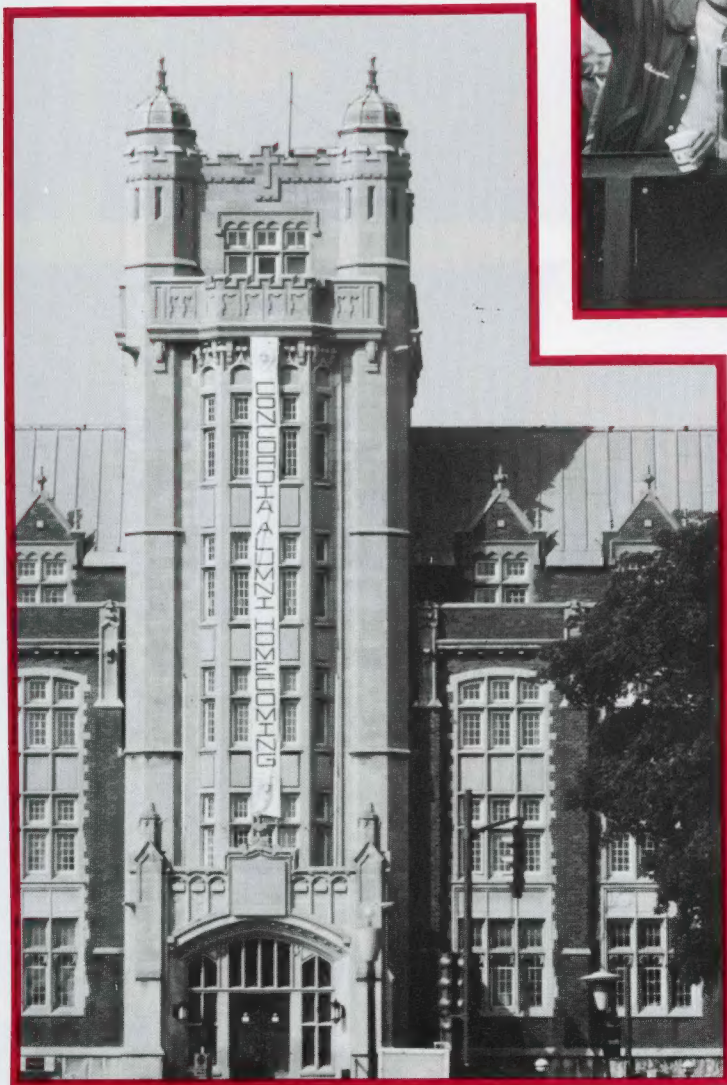

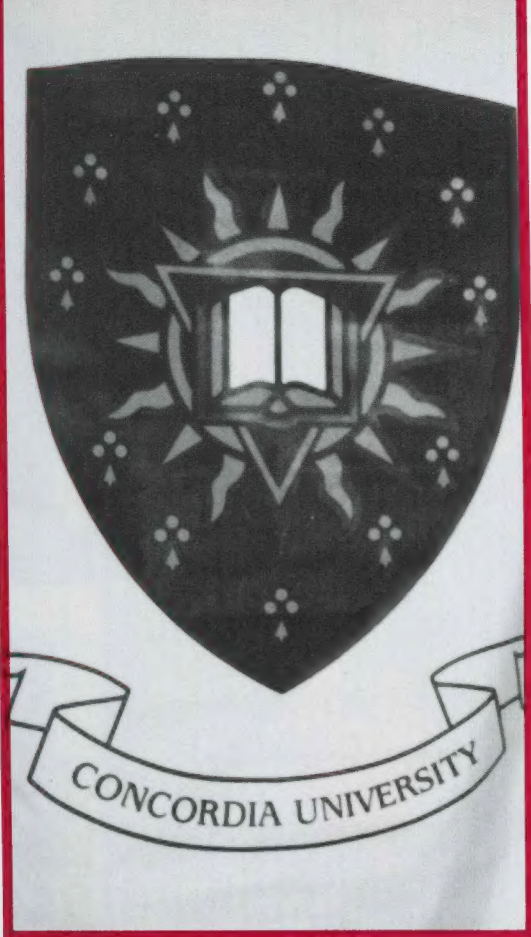

Concordia inaugurated "HOMECOMING" in October 1990 welcoming alumni back to campus with receptions, dinners, concerts, tours, special lectures and the big football game! Prominent among the weekend's activities was the celebration of the 25th anniversary of the Department of Communication Studies. A little rain didn't dampen the spirit of students, staff, faculty and alumni pictured here.

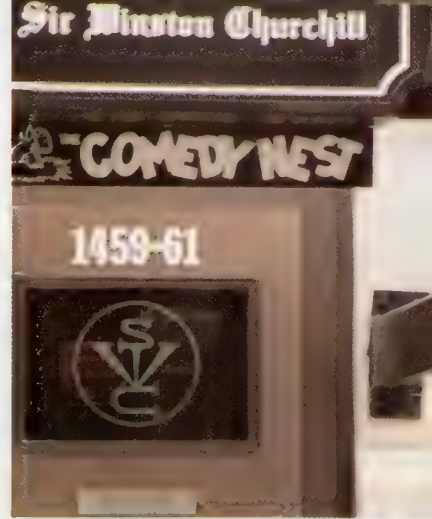

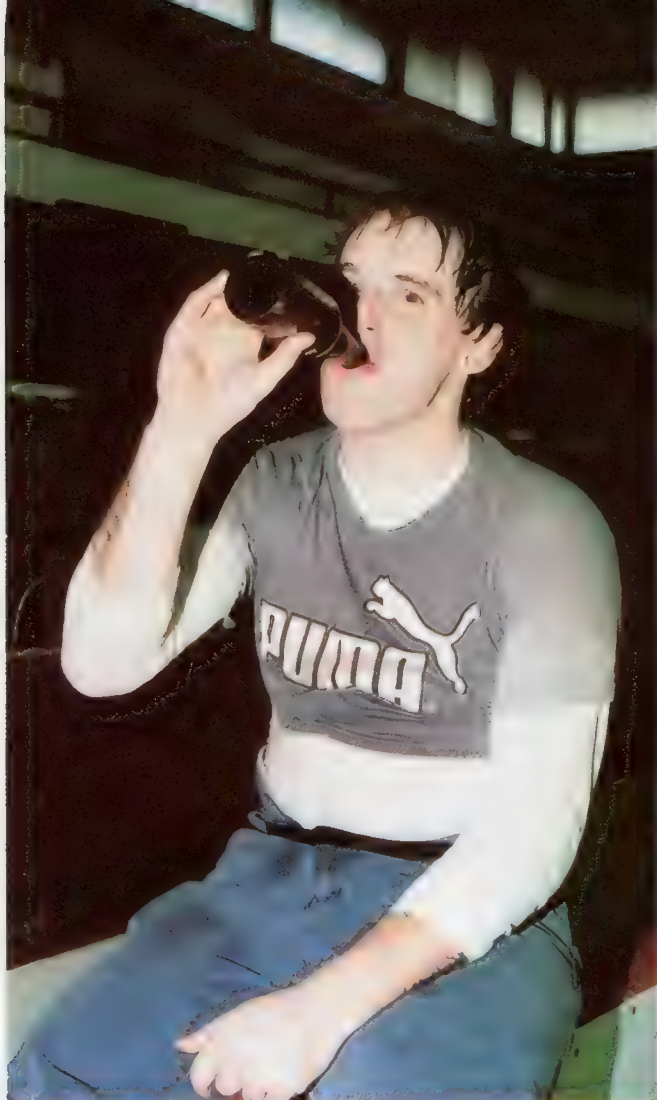

Among the many advantages of attending a dynamic urban university is the opportunity we have to visit favourite local spots. We are sure that you will recognize one or more of these!

VISUAL ARTS

25 years ago the Communications Department of Concordia was conceptualized and created by the professors of Loyola College. A lot of things have changed since then, both in the world of communications and Concordia's department. The most notable thing of the latter being, of course, the growing list of successful alumni - from *Pierre Gendron* (producer of *Jesus of Montreal*) to *Fiona Downey* of Newswatch to *Mike Williams* of Much Music to *John Pennefather* of The National Film Board to ... and the list goes on!

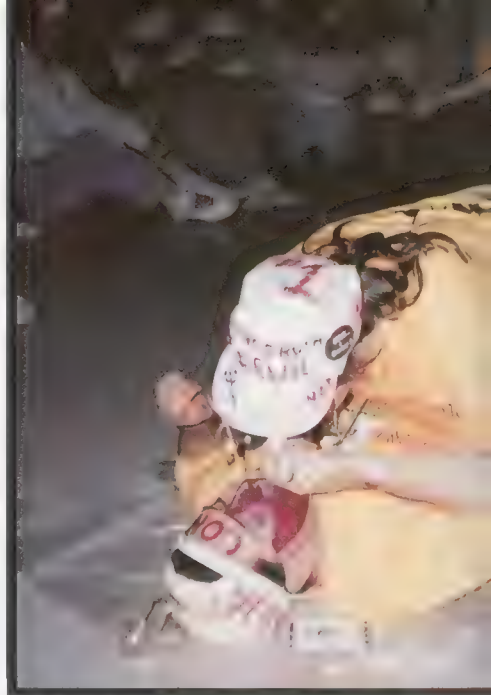

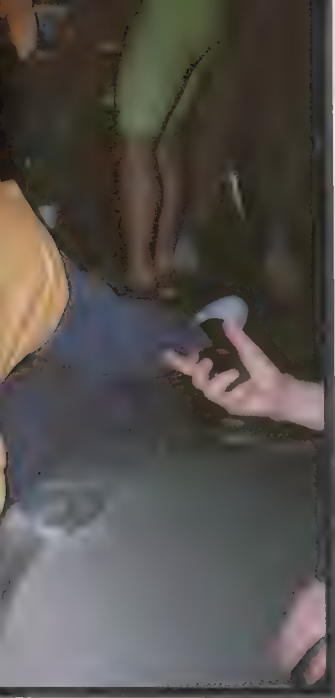

The celebration began with an Open House and a dinner at the Bonaventure - Hilton in mid-October. It continued through 1991 with guest speakers, film screenings, and two works celebrating the department.

THE RECTOR'S MESSAGE

Dear Graduating Class of 1991,

Every student undergoes the sensations which you now experience as you become a university graduate. The mixture of achievement of purpose and nostalgia for the experiences of student life are quite unique. When you look back on this time, you will undoubtedly see this as one of the great milestones of your life.

A university education provides you with many answers, but it also teaches you how to pose questions. One of the goals of a university education is to provide you with knowledge and expertise in the discipline of your choice. More importantly, it means learning how to learn, so that you can continue to enrich yourself as you move through life. Learning is a lifelong experience.

Although they are different than the ones you faced when you became a student at Concordia University, you will now face new and exciting challenges in the field you have chosen. It is my sincere desire that the University has helped to prepare you for these challenges with the different perspectives required to succeed in life.

I hope that Concordia has helped you to develop the balance of skills and social responsibility required for you to contribute to society with compassion and understanding. On behalf of the University, and myself, I would like to wish you every success in your future endeavours. We are proud to number you among our graduates and equally proud to have you as a representative of Concordia University.

A handwritten signature in dark ink, appearing to read 'P. Kenniff', with a stylized flourish at the end.

Patrick Kenniff

YEARBOOK STAFF ...

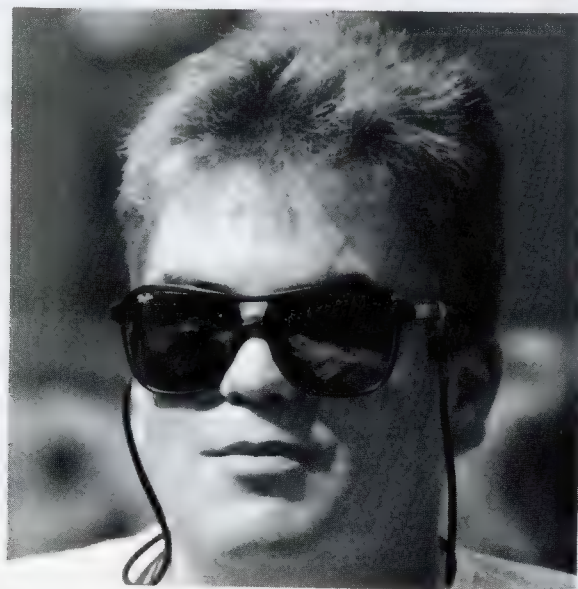

Producing a yearbook especially of this size and quality requires many hours of tedious labour (mainly on weekends!) but also offers many opportunities for fun and friendship. Those of us who persisted from early October until mid May are proud of this publication. We hope that you cherish this souvenir of your days at Concordia.

Congratulations!

From the
Concordia University Alumni Association

You have just become a part of our
V.I.P. network

Volunteerism

Through the hard work of many volunteers, we are able to offer alumni an array of membership benefits ranging from borrowing privileges at the University libraries ...to invitations to our social and educational activities...to lower interest charges with the new Concordia University Affinity MasterCard.

To find out more about your alumni privileges and activities: Just stop by, or call one of our offices.

Information

Through the *Concordia University Magazine* and our regular mailings, alumni can learn about Concordia events, issues related to higher education and stories of general interest. As long as alumni keep us abreast of any address changes, we can put you in touch with lost university friends.

The list seems endless. In fact, a child's chances for a long and healthy life were once quite low. Thanks partly to progress in medicine, the odds have improved greatly.

And now, strengthened by the law encouraging pharmaceutical research in Canada, Merck Frosst will double its commitment to science. And more than double our chances of finding solutions.

Saving and improving lives takes people, motivation, leadership, and ideas – and a firm conviction that the list can be shortened.
